Well, Well, Well!

1912 Found Us

right here on the job with the best stock of lumber, dimension, siding, casing, base, shingles etc., on hand that we ever had at this time of the year and our only excuse for having it was strong belief that the people of this community in 1912 are going to try out good, sound home investments in preference to a lot of those far away "Get Rich Quick" schemes that are like the song of the sirens. This lumber we have come from some of the best "quality" mills in the United States and we are not afraid to put it up against any material in the world for home building—price, quality, durability and long time satisfaction considered. You've got to see it to appreciate it, so come in and we'll talk over that new home of yours.
